

Organizers:

Semmelweis University,
Department of Pharmaceutics,
Budapest, H

Hungarian Academy of Sciences,
Committee on Pharmaceutical Sciences,
Working Committee on Separation Sciences,
Sections of Chemical and Medical Sciences
Budapest, H

Hungarian Society for
Pharmaceutical Sciences
Budapest, H

American Association of
Pharmaceutical Scientists
Arlington, VA, USA

International Pharmaceutical Federation
Hague, NL

European Federation for
Pharmaceutical Sciences
Stockholm, S

Workshop Co-Chairs:

Prof. Imre Klebovich, Budapest, H
klebovich.imre@pharma.semmelweis-univ.hu
Prof. Vinod P. Shah, North Potomac, MD, USA
dr.vpshah@comcast.net

International Scientific Advisory Board:

Gordon L. Amidon, Ann Arbor, MI, USA
Imre Bajusz, Basel, CH
Leslie Z. Benet, San Francisco, CA, USA
Henning H. Blume, Oberursel, D
Daan J. A. Crommelin, Utrecht, NL
László Endrédi, Toronto, ON, CA

4th International Regulatory Workshop on A to Z on Bioequivalence Bioanalysis, Dissolution and Biosimilarity

Budapest, Hungary, May 19–21, 2014

Budapest, January 10, 2014

Dear Colleagues,

On behalf of the Organizing Committee, it is our pleasure to inform you that the 4th International Regulatory Workshop on A to Z on Bioequivalence, Bioanalysis, Dissolution and Biosimilarity (BEW 2014) will be held in Budapest, Hungary, on May 19-21, 2014.

This unique event offers for the fourth time an extraordinary opportunity to its participants to meet leading scientists dealing with original and generic drug development from Europe, USA/Canada, Japan, China, India and Australia representing WHO, FDA, EMA, USP, as well as several national authorities. The main focus of BEW 2014 include a wide range of hot topics from bioequivalence, bioanalysis, *in vitro* dissolution, advances in pharmaceutical technologies, biotechnology to different aspects of biosimilarity, furthermore to the concerns of conducting clinical studies and their regulatory aspects.

Nowadays this scientific field is getting more and more appreciated therefore several researchers are involved from the research and development to the marketing authorization.

As you may see in the attached First Circular, the organizers' intention is to give a comprehensive review about the current status of this multidisciplinary field. Participants will also meet international exhibitors and CROs from the corresponding areas.

We expect more than 400 scientists from about 45 countries from all around the world.

The venue of the Workshop is, as a tradition, the home of the Hungarian Academy of Sciences, one of the most distinguished institutions of the 1100-year old Hungary.

We are looking forward to welcoming you and your colleagues this year again to the Workshop and do hope that you will find this outstanding scientific event with its social programs memorable.

Prof. Imre Klebovich

Prof. Vinod P. Shah

Co-chairs of the Workshop
